Subject: Authorized Registered Formulation

Enclosed is a copy of the "Authorized Registered Formulation" (ARF) for S-sil Food. It is the opinion of NSF International that this material is acceptable for the end use(s) specified. Please forward the ARF to the appropriate plant locations, which are listed on the ARF.

Please maintain a copy of this ARF on file at your plant location, and make it available to an NSF auditor upon request. The NSF audit of your plant will be guided by this documentation. This ARF is not transferable within NSF to any other company for NSF evaluation without your written authorization; and is not valid in conjunction with evaluation by any other certifying agency.

Only those specific material/ingredients and use levels indicated in the ARF are authorized for use in the certified product. To obtain authorization for an alternate supplier(s), ingredient percentage(s), or ingredient(s), please contact your Certification Project Manager at 1-800-NSF-MARK. For customers outside the USA, please use 1-734-769-8010 and ask for your Certification Project Manager. As a reminder, you are not permitted to make any formulation changes to NSF certified products without prior written approval from NSF.

Enclosure: Authorized Registered Formulation
